MY1 C Compiler

Guess what I have been doing for the last month? I call it my1cc (duh!)… and I have published my initial work at codeberg.org. Obviously it is wayyyyy from being usable, but the parser seems to work… somewhat. In the end, I was hoping to develop a usable C compiler for 8051/8085 platforms, so that I can use it in my microcontroller/microprocessor classes. I do have to pause a bit… hopefully I can resume A.S.A.P.

But, DO NOT hold your breath for that 😬

That is all I have to say about that.

programming, technology
