

# MY1 C Compiler

Guess what I have been doing for the last month? I have published my initial work at [codeberg.org](https://codeberg.org). Obviously it is wayyyyyy from being usable, but the parser seems to work... somewhat. In the end, I was hoping to develop a usable C compiler for 8051/8085 platforms. I do have to pause a bit... hopefully I can resume A.S.A.P.

But, DO NOT hold your breath for that

That is all I have to say about that.
